

OneSpace

PRODUCT, BRAND, UX & PLAYFULNESS BLUEPRINT

Master Executive Summary & Visual DNA Guide — 2026 Edition

THE DESIGN THESIS

"One continuous digital world — not a dashboard of boxes."

OneSpace is a living operating world for Aya & Mohamad and their shared life. It reduces mental fragmentation, preserves personal history, and turns daily routines, interior architecture, fitness, and intimacy into an emotionally intelligent experience.

01. Elegant

- Pure bright-white canvas
- Disciplined editorial typography
- Zero beige or dusty washes
- Quiet secondary surfaces
- Generous whitespace to breathe

02. Playful & Tactile

- Real tactile steppers (+ / -)
- Angled sticky notes (2-4° tilt)
- Source-aware shuffles
- Couple dice & time capsules
- Breathing disc & live feedback

03. Personal

- User-owned photos & work
- No generic stock illustrations
- AES-GCM client encrypted vault
- Living portfolio accumulation
- Authentic partner connection

What Adjacent Products Got Wrong & The OneSpace Gap

Notion	Gap: Requires tedious setup; feels like a sterile database table.	OneSpace: Pre-designed intelligence: deep structure is built-in.
Structured / Tiimo	Gap: Rigid timeline checklists without emotional depth.	OneSpace: Combines daily flow with creative work, wellness & couple life.
Paired / Cupla	Gap: Isolated couple chat or shared calendar with no personal worlds.	OneSpace: Three interconnected universes: Aya, Mohamad & Us.
Finch	Gap: Juvenile gamification & cartoon pets.	OneSpace: Sophisticated, adult playfulness rooted in tactile action.

Master Visual System & The Color Law

Vivid controlled accents on pure white canvas — no washed-out beige

The 3 Cardinal Visual Rules

1. WHITE CARRIES THE EXPERIENCE (#FFFFFF):
The canvas is pure, high-contrast, bright white. It lets the vibrant colors pop and gives the mind room to breathe. Beige is forbidden as a background wash.
2. COLOR MUST HAVE A JOB (NOT ARBITRARY DECORATION):
Every color belongs strictly to an identity family and communicates status, energy, or area. Tints are used at 8-15% only for subtle local atmosphere.

Official OneSpace Palette Tokens

Canvas White #FFFFFF · Main background canvas	Cool Pearl #FCFCFF · Quiet secondary surfaces
Ink Text #17141F · Primary high-contrast typography	Blossom Pink #FF2F7D · Aya primary / Intimacy / Action
Vivid Violet #7C4DFF · Aya focus / Create / Intelligence	Lilac Tint #E8DFFF · Aya reset / Breathing / Calm state
Aqua Cyan #24C7D9 · Mohamad hydration / Freshness	Rich Purple #5B35D5 · Mohamad depth / Tech / Gaming
Warm Rose (Us) #F0568A · Shared chronicle / Love Bar / Nerves	Juicy Amber #FFB020 · Milestones / Nutrition / Warmth
Fresh Mint #43D9A3 · Home goals / Habits / Success	

Typographic Pairing & Hierarchy

Fraunces Serif

Used exclusively for: Page titles, signature statements, emotional prompts ("How are you, really?"), and key celebration numbers. It gives the feeling of a refined personal book or luxury editorial journal. Never used for dense body text.

Inter Sans-Serif

Used for: Controls, navigation, form inputs, counters, task lists, and information banks. Ensures instantaneous scannability, zero eye-strain, and crisp rendering across mobile and desktop.

The 6 Layout Primitives

Replacing repetitive card walls with dynamic, purposeful rhythm

1

Open Canvas

Titles, mood check-ins, and high-level intentions sit directly on the clean white surface without bounding boxes. Feels open, light, and unconstrained.

Signature Use: Aya arrival: "How are you, really?" with tap-selectable feeling chips.

2

Visual Rail

A horizontal, swipeable strip of items side-by-side. Avoids vertical clutter and encourages quick horizontal browsing without forcing endless page scrolls.

Signature Use: Movement rail (Stretch, Walk, Dance, Strength) or Interior Studio rooms.

3

Active Stage

Selecting an option transforms a single dedicated area in-place instead of injecting new nested boxes below. Keeps focus on one decision at a time.

Signature Use: Creative Studio: switching between [Write], [Voice], and [Visual] modes.

4

Editorial Split

Two complementary ideas side-by-side in one balanced composition. Creates natural visual contrast between structured daily focus and spontaneous ideas.

Signature Use: Today's main intention paired with a tactile tilted Sticky Note reminder.

5

Timeline / Gallery

Living, growing collections arranged organically. Removes rigid constraints and lets memories, meals, and inspirations accumulate beautifully.

Signature Use: Daily Food Collage (photo + time + feel) or Shared Polaroid memories.

6

Immersive Moment

A full-width, tranquil visual anchor with minimal UI noise, designed for nervous system soothing and grounding at the end of a busy day.

Signature Use: 4-7-8 Breathing disc with gentle breathing guidance and calm sounds.

SHAPE GRAMMAR: STOP TURNING EVERYTHING INTO CIRCLES

- Default Content Surface: Soft rectangles with 14-18px corner radius.
- Tabs & Navigation: Underline indicator or soft rectangular highlight — not pill bubbles.
- Circles: Strictly reserved for avatars, progress circular dials, and breathing touchpoints.
- Sticky Notes: Paper slips with 2° to 4° tilt and soft drop shadow. Maximum 1-2 visible per screen.

Signature Playful Interactions

Tactile behavior, joyful discovery, and intimate partner rituals

Tactile Stepper Counters

Space: Fitness & Hydration

Large legible numbers with instant tactile plus/minus buttons (+5 / -5). Directly updates workout stats and water vessel fills with immediate visual feedback.

Tactile Feedback

Source-Aware Shuffles ("Pick For Me")

Space: Aya Today & Shared Space

Instead of generic random quotes, the shuffle button pulls from real stored product banks (Interior Studio challenges, house cleaning tasks, or Unravel questions) and always credits the source.

Intelligent Shuffle

Unravel Couple Dice & Games

Space: Shared Intimacy

Rollable virtual dice generating an action and a location (e.g. "A slow, sweet kiss" + "On the balcony"). Truth or Dare cards, Heart-to-Heart questions, and Secret Fantasies.

Playful Ritual

Sealed Time Capsules

Space: Shared Memories

Written love letters or anniversary notes sealed with a future unlock date. Keeps relationship milestones sacred and creates meaningful anticipation.

Gated Reveal

Dual Voice Lockbox & Instant Love Bar

Space: Private Couple Sync

Send quick love taps ("Thinking of you", "Proud of your hard work") with one tap. Private encrypted voice notes stay locked until both partners record theirs.

Zero Friction

Interactive 4-7-8 Breathing Disc

Space: Sanctuary & Reset

A calming pulsing disc with 4s inhale, 7s hold, and 8s exhale intervals, paired with relaxing background sound options (Gentle Rain, Cozy Hearth, Night Air).

Nervous System Reset

NOTE: PLAYFULNESS COMES FROM INTERACTION, NOT DECORATION

True delight happens when tapping a button feels responsive, rewarding, and purposeful. We avoid superficial cartoon stickers or floating confetti in favor of smooth physics, satisfying clicks, and meaningful partner revelations.

The Three Worlds & Implementation Contract

Strict architecture for the step-by-step rollout

The 3 Spaces Architecture

Aya's Space (Sanctuary, Create & Grow)

- Today View: Flowing rhythm from check-in "" tasks "" movement rail "" food collage "" reset.
- Interior Studio: Hero architectural hub with real room plans (Bedroom, Living, Kitchen, Bath), dimensions, technical drawings, and user portfolio.
- Creative Studio: Voice-over, writing & visual idea capture with creative draft shelves.
- One-Week Strip: 7-day horizontal planning canvas with integrated shopping drawer.

Mohamad's Space (Tech, Fitness & Focus)

- Tactical Workouts: Rep steppers for pushups, bicep curls, tricep dips, and squats.
- Recharge Modes: Visual mode switcher (Gaming, Music, Rest, Outside) to reset focus.
- Visuality & Work Pipeline: Structured CRM for leads, projects, client stages, and revenue.
- Gamer Theme: Sophisticated technological energy, never generic dark mode.

Shared / Us Space (Intimacy & Future Home)

- Living Chronicle: Live days count together + countdown to moving into the shared home.
- Partner Sync: Gated emotional check-in, Instant Love Bar, and private voice exchanges.
- Future Home Sanctuary: Room wishlist, budget ledger, circular savings progress dial.
- Unravel Games: Couple Dice, Truth or Dare, Heart-to-Heart, and Time Capsules.

The Non-Negotiable Engineering Contract

STRICT COMMITMENT TO DATA PRESERVATION & CRAFT

1. ZERO DATA LOSS:

All existing routes, state structures, local AES-GCM vault security, information banks (Interior Studio scenes, CRM leads, routines, memories, audio recordings) MUST be 100% preserved.

2. REIMAGINE PRESENTATION ONLY:

We do not cut features to make things look cleaner. We upgrade the presentation layer from boxed clutter into an elegant, high-contrast, living world.

3. STEP-BY-STEP BUILD ORDER:

- Phase 1: Main Portal (Open identities, no cards)
- Phase 2: Aya Today (Flowing day composition)
- Phase 3: Grow & Learn + Interior Studio (Hero architectural studio)
- Phase 4: Create Studio & One-Week Canvas
- Phase 5: Mohamad's Space & Shared Us Center

Ready for Step-by-Step Implementation with Aya.
